	MATHS TEST 138 1000 1000 1000 1000 1000 1000 1000	
38823	Roll Number 3BR23CD062 XPERIMENT tle Alice has a mathematical test for which she is used amounted. She has to do at least one question agreed to a total local and account to the test like.	822
,	Description (St. 1987))
5350065	Alice has a mathematics test for which she is underprepared. She has to do at least one question correctly to pass the test. He decides to do a question which needs her to find the smallest prime number which is larger than a given integer N. Your task is	C
2300	to find and return an integer value representing the smallest prime number larger than N.	, CO,
	Input Format:	
3062 3BR	input1: An integer value N	2
200		200
ک	Return an integer value representing the smallest prime number larger than N.
